

# **EXHIBIT 2**

### **Plaintiffs' Custodian Proposal**

- **Group A:** Senior executives currently or previously employed by Defendants, nearly all of whom were custodians during Plaintiffs' pre-Complaint investigation. Accounting for the pre-Complaint investigation, Plaintiffs seek a full custodial collection from January 1, 2015 – December 31, 2016 and January 1, 2023, through the present. Defendants agree to these custodians but refuse to produce documents prior to January 1, 2017.
- **Group B:** Employees currently or previously employed by Defendants, all of whom were custodians during Plaintiffs' pre-Complaint investigation. Accounting for the pre-Complaint investigation, Plaintiffs seek a limited custodial collection of emails and attachments from January 1, 2015 – December 31, 2016, and a full custodial collection from January 1, 2023 through the present. Defendants agree to these custodians but refuse to collect and produce documents prior to January 1, 2017.
- **Group C:** These are five senior executives currently or previously employed by Defendants who were not custodians during the pre-Complaint investigation. This group includes individuals with responsibility related to Defendants' conduct core to allegations in the Complaint that were fully covered by custodians in the pre-Complaint investigation. Plaintiffs seek a full custodial collection from January 1, 2015 through the present. Defendants do not agree to any of these custodians.
- **Group D:** Employees currently or previously employed by Defendants, most of whom were not custodians during the pre-Complaint investigation. For 11 of these individuals with an asterisk, Plaintiffs only seek a limited custodial collection for the date ranges indicated below. For 19 of these individuals, Plaintiffs seek a limited custodial collection of emails and attachments from January 1, 2015 – December 31, 2018 and a full custodial collection from January 1, 2019 to the present. Defendants agree to two of these custodians but none of the remaining individuals.
- Because several of Plaintiffs' custodian-related questions to Defendants remain outstanding, Plaintiffs request that Plaintiffs be allowed to add up to three custodians prior to January 15, 2025, and to request additional searches or collections if warranted by discovery developments.
